Deputy Director, Construction – AMENDMENT

If you are committed to public service, enjoy collaborating with others, share our values and have a desire to learn and grow, join [The City of Calgary](#). City employees deliver the services, run the programs and operate the facilities which make a difference in our community. We support work-life balance, promote physical and psychological safety, and offer competitive wages, pensions, and [benefits](#). Together we make Calgary a great place to make a living, a great place to make a life.

The City is committed to fostering a respectful, inclusive and equitable workplace which is representative of the community we serve. We welcome those who have demonstrated a commitment to upholding the values of equity, diversity, inclusion, anti-racism and reconciliation. Applications are encouraged from members of groups that are historically disadvantaged and underrepresented. Accommodations are available during the hiring process, upon request.

As the Deputy Construction Director, you will be responsible for leading the Green Line's construction management, safety management, quality management and environmental management teams for the early works and the DBF contracts. You will report to the Construction Director of Green Line and will work closely with the Technical, Commercial, Stakeholder Relations, and Business Services Deputy Directors as counterparts to successfully deliver the Stage 1 program which is 20 km in length with a capital cost of \$4.9B. Stage 1 includes at-grade, elevated, and underground urban LRT track and stations. Stage 1 also includes several bridges and three river crossings. Responsibilities of the Deputy Construction Director include but are not limited to:

- Manage safety, quality, environmental, and construction teams.
- Provide construction oversight, leadership, and direction for the delivery of the Green Line.
- Lead the construction management function ensuring the overall quality, budget, and schedule objectives.
- Ensure compliance with corporate safety, project management standards, procedures, controls, and environmental requirements.
- Provide senior leadership in the resolution of implementation issues with third-party partners including Alberta Transportation, City of Calgary, Calgary Transit, and utility companies to ensure construction schedules are achieved or improved.
- Provide subject matter expertise in constructability and value management/engineering reviews for projects and act as a construction expert in claims scenarios.
- Manage complex project issues and risks, facilitate effective conflict resolution, communicate with internal and external stakeholders, and manage their expectations.
- Ensure all pre-construction deliverables are understood and scheduled to comply with construction contract needs, including utilities, permitting, environmental, land acquisition, and third-party agreements.
- Administration and oversight of all contracts and construction activity related to early works and utility scope (Owner's scope).
- Provide constructability feedback to the technical team and participate in the review of technical proposals.
- Administration and oversight of the DBF contract scope (Project Co's scope).
- Review of the design and technical submissions by Project Co from constructability standpoint.
- Ensure compliance to all technical, legal and professional requirements and advocate for continuous improvement.
- Actively participate in the program risk management from construction standpoint. Manage the budget for early works and to avoid cost overruns.
- Prepare and deliver presentations to project's senior executive team, City senior leadership, Committees and Council, Green Line Board, and other senior levels of government.
- Monitor and manage construction Key Performance Indicators (KPIs).
- Provide professional guidance to other Project team members as required.
- As a knowledgeable and credible leader, provide support for stakeholder engagement and communications matters to positively influence significant stakeholders and key partner agencies.
- Any other duties as assigned by the Construction Director.
